

THE
COTSWOLD BED™
COMPANY

Keeping the lights on!!

Our factory operation continues to grow, and we wanted to ensure we could grow sustainably. And maintain our BCorp fundamentals

We wanted to make our beds and sofas with Cotswold Sunshine!

FUNDING THE FUTURE

CHELTENHAM
BOROUGH COUNCIL

Our clients are asking us to become more sustainable

We knew we could make a substantial reduction to our Carbon Footprint

We already have many initiatives for recycling materials within our factory

We already have Social Care Initiatives for our workforce

Our clients are asking us to become more sustainable

We knew we could make a substantial reduction to our Carbon Footprint

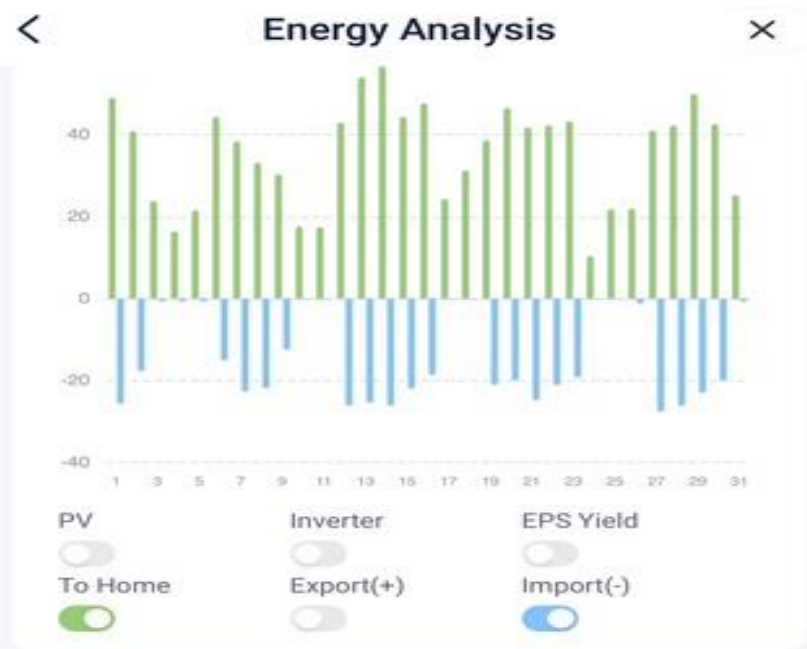

The CheltZero Funding Grant was relatively straightforward to apply for, and allowed us to instal our first Solar Panel Array

Our Landlords JLL have now agreed to add a further Array to help us to maximise savings for BOTH factories...

FUNDING THE FUTURE

Energy flow

Yield ⓘ	936.20 kWh
System to Home 95.03%	889.69 kWh
System to Grid 4.97%	46.51 kWh

Consumed ⓘ	1,079.86 kWh
From System 82.39%	889.69 kWh
From Grid 17.61%	190.17 kWh

Installed on 8th March 25 The Solar Panels instantly sprung to life generating substantial energy levels – which we could store in our battery packs over the weekend when we are closed

In 3 months, we have saved 1.84 tonnes of CO

Generated 2,600 kwh of electricity

Equivalent to planting 30 trees

Certified

Corporation

The Future

We want to renew and repurpose more furniture

Generate another 2,600 kwh of electricity per quarter to power our wood working department

We want to physically plant trees in the Cotswolds

We want to compact our paper waste to make it collectable

Explore more sustainable packaging

Heat our factory effectively... maybe our wood waste???
